

## The Agloco Community is Dynamic, Vigorous, and Purposeful

26th February 2007  
 From Official Agloco Blog  
<http://blog.agloco.com>  
 -----

If you have been reading the comments on the previous post to this blog, you have seen there is a lively debate going on regarding the signup page, external links, and the length of time the system keeps your referral. Some Members (such as Adam from AglocoHype) even extended the discussion to their own blogs. As such, this week we will be making changes to address those issues, so stay tuned for that.

I have talked before about the energy within this pre-launch community, and so I find the debate extremely encouraging. Apparently others agree with me, as one Member writes:

But when mam valerie posted her second comment as the 16th commentator the Dynamic Discussions propelled to a start. All sorts of comments and suggestions from all directions thrown to Brian which opted him to post a long comment which according to him "this comment the size of a new post, but since several of you seemed so urgently concerned with being heard I thought I would give you "the long answer";

Dynamic according to encarta dictionary:

vigorous and purposeful: full of energy, enthusiasm, and a sense of purpose and able both to get things going and to get things done.

This is just great guys. This how the Agloco Community today, tomorrow and beyond will going to become. This will be a great community to reckon with. This is AGLOCO all About Agloco telling you - Are you going to miss this?

I saw another great blog post recently that I found inspirational. Here's a part of it:

My Perspective of Agloco, in my dreams;

Imagine;

A business opportunity with a totally revolutionary concept which potentially will help millions of internet users to get the share they deserve.

Imagine;

Having your business positioned in the hottest industry - social communities, that is literally exploding.

Imagine;

Having your business backed by a large Management Team made up of highly intellectual individuals whose identities and credentials are fully disclosed.

Imagine;

Being given an opportunity to build a business without any capital outlay, through a 5-level unilevel referral program. And the business has the potential to become a public-listed entity. Your only investment is your time and effort.

Imagine;

Building a business that you yourself is an owner jointly with all other members. And this business has the potential to partner with some of the "Big Names" in the list of Fortune 500, Wall Street and Nasdaq.

Imagine;

For the first time in the history of the internet, you, as an internet user, have the opportunity to "Own The Internet";

Now Imagine;

You're the only game in town and the town is the entire World. Today, what we have dreamed, imagined, hoped and prayed for has, in fact, soon become a reality. And I have the pleasure

of welcoming you to join us in Agloco to write a new chapter in the Internet History.

Newton's first law states that every object will remain at rest or in uniform motion in a straight line unless compelled to change its state by the action &hellip;  
Here in Agloco, nothing in our way can compel to change our course of action.

To all my Fellow Agloco Founder Members :  
Keep going, keep building, don't stop, keep that momentum&hellip;  
TOGETHER, we can succeed !

Again, I just love the energy in this community.

There have been a couple of times I've referred to a Member blog post in order to illustrate a point, or because it was interesting or inspiring to me. I'd like to ask you to share: Of all the posts you've read, on this Official blog, or any Member's blog, which has been the most useful and/or inspirational to you?
